How to add a multiple choice questions within your video using Kaltura Quiz Tool.

After you have created your video and uploaded it to My Media, you can use the Kaltura tool to add quiz questions to you video. When creating your video, it is good to be mindful of where you would like to add a quizz question so that you have a somall pause before starting your next sentence. When reviewing your video, keep track of the time within your video where the question is to be inserted. When you are ready to add your quiz question(s) to your video, turn editing on within your course.

Questionnaires		Add media

Your My Media will come up. It is tempting here to find the video you are adding to, but don't.

The next step is to click '+ Add New' and select 'Video Quiz'

Once you do then your videos appear with the word "Select" beside them. (If you see "</> Embed", then you missed the previous step). Select the appropriate video.

The Following screen appear giving you some choice in the setup, Under 'Details', 'Scores', and 'Experience'

The three screenshots show you the options under each.

Adding your question: At the bottom of your screen you'll find the time bar at the bottom right. Grab and slide it to the time position of your 1^{st} question. Then Select "Multiple Choice" I have selected to put my question at 00:47.24. Make sure you pick the time carefully, because there didn't seem to be a way to change it after you save it.

Add your question and the possible answers. To add more additional answers, click the '+'

III University of Western Ontario University of Toronto University of Northern British Columbia

Next, if you wish, you can add a 'Hint' which will appear when the student sees the question, and a 'Why' which appears after the student answers the question. For these options to appear, click the light bulb at the top right of the question box. Then select Hint and/or Why, and add your information.

Your question appears. I have added a Hint that will appear when clicked.

The student makes their choice then continues. Note that clicking the answer bar highlights it. But you still need to click select. Then select continue.

Then select continue. The students must submit their answers.

The students must submit their answers. Once the students have submitted their answers, they can see the correct a

Once the students have submitted their answers, they can see the following: (note that I only had one question)

The student can review a question by clicking the number. (I only have 1). The following appears:

Which University did I earn my Masters Degree? Your Answer: University of Western Ontario Correct Answer: University of Western Ontario	WHY	ESC
Question 1	Got It !	

If the student selects "why" (If you included a 'why') then your explanation will appear.

You can add more questions by sliding the time bar to the time position of your 2nd question. Then Select "Multiple Choice" and so on. When you have finished adding questions and saving them, select 'Done.' (top right)
